

Ground

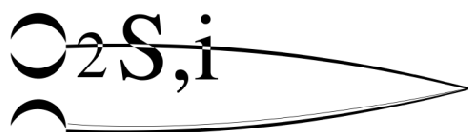

Note: provide jumper from L3 to L4 to share circuit.

Dotted Lines Indicate Field Connections

Service Connection:

- (1) 240v 20amp for DF Pump
- (1) 120v 20amp for Recirc Pump & Controls

Note: panel may be used with only (1) 120v, 20amp circuit by jumping L3 to L4 which shares the 120v pump circuit with the 10amp control circuit.
